About

Are you planning a project to save energy in households or small organisations? Do you need advice on how to connect with energy users and work with them for lasting energy savings? This Toolkit, based on a European project called [CHANGING BEHAVIOUR](#), helps you find your way. It is based on research and practical experience from case studies and pilot projects in different countries, and takes a practical approach to your problems.

Step-by-Step

The [step-by-step guide](#) offers you advice and tools for each stage in preparing, designing and evaluating your energy saving project

First time here?

Check out the [toolkit introduction](#).

Case Study Highlight

SANIT

On-site advice service for energy efficiency renovations provided by consumer NGO

Started: 2005 — Country: Germany
